THURSDAY, MAY 18, 2023

Lunch Session Sponsored by Boston Scientific Empire East, 2nd Floor

The future of Emergent Embolization: Coils and a conformable Embolic

IRs, as the masters for Coil Embolization, Why, how and when to add the newest, the 1st FDA approved conformable embolic into your current Emergent Embolization practice to advance the clinical outcome and optimize the procedural techniques.

Moderator: Gary Siskin

Speakers: Rahul Patel, Nima Kokabi, Dania Daye

Lunch Session Sponsored by Guerbet New York West, 3rd Floor

Building a Lymphography Practice

Speakers:

Maxim Itkin - Why I built a lymphography practice

Kumar Madassery - How I built a lymphography practice

Julien Ghelfi - The national network for lymphangiography

Lunch Session Sponsored by Penumbra New York East, 3rd Floor

The Shift from Thrombus Dependent to Mechanical Occlusion for Embolization

Join leading faculty panelists as they discuss the evolution of embolization. Learn how Penumbra is moving the field of embolization forward in this case-based discussion with clinical evidence.

Speakers: Sabina Amin, Jafar Goltzarian, Parag Patel

2:40-2:55 pm GEST Talk Sponsored by Merit Medical Exhibit Hall, 2nd Floor

Swift Decision Making: When SwiftNINJA® Should Be Used to Overcome Tricky Procedures

Find how using SwiftNINJA first will simply and shorten challenging PAE procedures.

Speaker: Mark Little

FRIDAY, MAY 19, 2023

9:40-9:55 am GEST Talk Sponsored by BALT Exhibit Hall, 2nd Floor

All-Purpose Precision Embolization System

Product Demonstration and Clinical Experience with Balt's Prestige Plus Coil System

Speaker: Bill Majdalany

Lunch Session Sponsored by Boston Scientific Empire East, 2nd Floor

Transforming the Embolotherapy practice with a novel conformable embolic: US clinical experience insights

The first U.S. clinical experience with the novel conformable embolic Obsidio. Learning from the Pioneers on how the most innovative technology transforms the embolotherapy practice.

Moderator: Jafar Goltzarian

Speakers: Rahmi Oklu, Kevin Henseler, Sid Padia

Lunch Session Sponsored by Canon New York West, 3rd Floor

Transforming Global Patient Care Using Angio-CT

Attendees will have the opportunity to meet the pioneer of hybrid Angio-CT (4D CT), and two other world-renowned experts in interventional radiology. They will gain exclusive insights into the unique and novel uses of hybrid 4D CT in Interventional Radiology and Interventional Oncology.

Speakers: Boris Guiu, Yasuaki Arai, Nainesh Parikh

Lunch Session Sponsored by Medtronic New York East, 3rd Floor

Focus on HHT Patients: Achieving Success in Pulmonary AVM Embolization

Hereditary Hemorrhagic Telangiectasia (HHT) is a complex, genetic systemic disease that is associated with a high incidence of Pulmonary Arteriovenous Malformations (PAVMs). Interventional Radiologists and their Allied Health Professional colleagues play a crucial role in the work-up, diagnosis, and treatment of HHT patients. This educational program will discuss the clinical presentation of HHT and the incidence of PAVMs and provide an overview of PAVM treatment guidelines, procedural techniques and data related to PAVM treatment. This program will also highlight challenging cases to showcase treatment with coils and microvascular plugs.

Moderator: Clifford Weiss

Speakers: Sanjeeva Kalva, Claire Kaufman

2:40-2:55 pm GEST Talk Sponsored by Terumo Exhibit Hall, 2nd floor

The Pulse of Modern Embolization – Latest Clinical Evidence on Radial Access

- In-depth review of the latest prospective, multi-center study on radial access for visceral embolization procedures
- Learn how to apply radial access in your practice to improve efficiencies and patient satisfaction

Speaker: Marcelo Guimaraes

INDUSTRY PRESENTATIONS

SATURDAY, MAY 20, 2023

7:30-8:30 am Breakfast Session Sponsored by Boston Scientific

Empire East, 2nd Floor

Modern IR: The breadth and varied experiences of Women in IR

Moderator: Alexa Da Silva

Panelists: Kirema Garcia Reyes, Leigh Casadaban, Yolanda Bryce

10:10-10:25 am GEST Talk Sponsored by Philips Healthcare

Exhibit Hall, 2nd Floor

Navigating confidently through complex anatomy in PAE

How can cone-beam CT imaging support you in performing prostate artery embolization? Join Philips at our lunch talk to learn how expert Prof. Sapoval uses image guided therapy platform – Azurion, to support him in confident planning and treatment decisions with minimal X-ray dose and a clear visualization of the vasculature. Visit Philips at booth 403, where we will be demonstrating our latest imaging technology. We look forward to connecting with you!

Speaker: Marc Sapoval

Lunch Session Sponsored by Sirtex

Empire East, 2nd Floor

Y-90 Dose Dynamics: Optimizing Activity and Coverage of Resin Microspheres

Speaker: Donna D'Souza

Lunch Session Sponsored by Cook

New York West, 3rd Floor

Best Practices in Pelvic Venous Disorders

Join our esteemed panel for an interactive debate discovering best practices in Pelvic Venous Disorders. The session will guide the audience through clinical evaluation and classification, which imaging modalities to use and how you decide to treat. You will hear about the management of patients with combined reflux and obstruction and the role of venous stenting. The panel will discuss embolic material selection and patient follow up, and with evolving OBL practice uncover how Pelvic Venous Disorders can align within this setting. We look forward to welcoming you to this informative session.

Moderator: Seetharam Chadalavada

Speakers: Neil Khilnani, Kirema Garcia-Reyes, Sarah White

Lunch Session Sponsored by Gore

New York East, 3rd Floor

Rethinking TIPS: Continuing to learn across disciplines to support patient outcomes

Patients with portal hypertension are complex. Hear from an Interventional Radiologist and a Transplant Hepatologist about their experiences in managing patients with TIPS, considerations for patients with hepatic encephalopathy, and what we can further explore to improve the multidisciplinary approach to care for TIPS patients.

Speakers: Wael Saad, Brett Fortune

6:00-7:30 pm Women in IR Networking Reception

Sponsored by GE HealthCare

New York West, 3rd Floor
